*Training a new generation  
of homeschoolers*

**Master teacher, Jessica Hulcy, provides the ultimate hand-holding mentoring:**

- Weekly PowerPoint lesson plans
- One-hour, online video, lesson training
- Tons of "how to teach instructions"
- Dialogue with online co-op partners
- Accountability, encouragement, prayer
- 4 groups: 2 Vol.I groups, Vol.II, & Vol.III
- \$30 per month with a semester commitment

... This year I was burned out, I had no KONOS support. So I tried other things. By January I was back to KONOS and joined the co-op online, so I could watch Jessica... What I have learned is Jessica is gifted, and KONOS stands on its own. I know this because my children and I "created the balance." Her philosophy regarding inputting information while children are young using the timeline really works.

...my enthusiasm begins as I watch Jessica's smiling face in various crazy costumes share upcoming learning opportunities. It continues as I hear from others in the group share their observations and suggestions. Finally, I can hardly contain the light in my eyes and smile on my face as I dive in to our day of adventure and knowledge... the kids can feel my new-found energy and they respond in-kind.

My children have learned why boats float and have done the experiment to prove why. They have learned the Bernoulli principle (even my 5 year old) and what makes a plane lift off the ground. They have dramatized flying an airplane where they learned to be creative in what to use for a cockpit, uniforms, etc. Your children will learn more and remember more than you can ever imagine.

# FREE Week!

We joined the co-op for Kings & Queens which we had already done...but with Jessica teaching, we reached a new height.

I look forward to the videos every week....Jessica and Wade put so much into the lesson plans... who hasn't come away from these videos knowing more than BEFORE as an adult?? ...having so much material available gives me the opportunity to choose what is best for my family!

Watching the videos has made me flourish as a teacher under the mentoring of the most gifted, genuine teacher and person I know. Jessica, "I salute you!" You are way above average and YET, so real and down-to-earth... a good Christian momma-type we should all aspire to be. PLEASE continue to add KONOS online units. They are the best thing on the market for moms and kids providing hands on learning! KONOS Online Co-ops Rule!!
